## £2 million refurbishment for Fleming's Mayfair

UK: London boutique hotel Fleming's Mayfair has announced a £2million refurbishment programme.

Work is underway on the project's £1million phase one at the property, which is made up of six converted Georgian townhouses.

Six newly refurbished suites and apartments will be unveiled in April, including the penthouse and roof terrace.

Designed by [Suna Interior Design](#),

each of the one-, two- and three-bedroom suites and apartments will have its own individual theme.

The second phase of the programme - refurbishing the hotel's 115 guest bedrooms - will begin in early 2015, with an additional £1 million investment.

General manager Oliver Brown said: 'We're thrilled to announce news of our exciting and ambitious plans; with the first phase of redesigning and refurbishing our suites and apartments well underway. Already renowned for our quality, boutique offering and exceptional service, the £2million investment will elevate [Fleming's Mayfair](#) to new levels. Whether guests stay with us days, weeks or months, our suites and apartments will offer the ultimate in luxury living.'
