Tasteful and Cozy Countryside Home by Suna Interior Design

[Share on Facebook](#) [Share on Twitter](#) [+](#)

The London-based, award-winning boutique consultancy [Suna Interior Design](#) office imagined an elegant cluster of residential spaces. This amazing home in a stylish residential development – [Aura Cambridge](#) – shows how the creative design team envisioned elegance captured within a modern space. This is one of the show homes created by designers to surprise the need for comfort and style even in the countryside. The whole development promises tranquility and elegance and this beautiful home in muted colors shows reflections of high-life in its details.

Using colors and textures to build an elegant realm where you can feel at home, designers created an inviting interior environment. Natural light complements the natural color palette in all social spaces, while patterns compose an intriguing bedroom design and vivid colors surprise playfulness in the children's room. I'm sure you have a favorite detail showcased in this inspiring show home. Care to share it with the rest of us in the comment section below? We'd love to know what you think.
