

What Helen and Rebecca say:

“The basin was a completely bespoke design in Corian with an off-centre oval bowl and surface mounted tap with the controls fixed to the front face of the slab.”

Project cost - £3,500

Price is supply only

The brief:

Suna was commissioned by developer Mount Anvil to design the full interior specification for its Central Square development – a 170 apartment complex situated in the heart of central London. The project’s location meant that the anticipated purchaser was a considered and discerning professional, who would have an expectation of quality and high level of design – which is fine, but Helen and Rebecca had to achieve that brief with a supply only budget for each bathroom of just £3,500 including tiling.
